RESORT • GOLF • SPA

June 30, 2005

Dear Mr. Mark Swann,

I have been a PowerGL software user for the last two years in my position of Controller at Taboo Resort. I have found your software to be very user friendly and quite easy to learn.

Features that I most like about your software are the utilities and the ability to export data. The utilities allow you to check your data integrity and fix it easily if you have any problems. The data export function to Excel is great for data analysis and the PDF file export function is great for reporting to corporate office.

The software support and customization you have given Taboo over the years has been timely and excellent. There is not a time you are not available and you have always work with us to set up the software that works best for our special needs at Taboo.

Thank you for your past support and looking forward to continuing working with NorthSoft Systems in the future.

Yours in Hospitality,

A handwritten signature in black ink, appearing to read 'K. Reeve', with a large, sweeping flourish above the first name.

Kevin Reeve
